When completing the table, proceed as follows: 1) if the evaluated element meets the accessibility requirements, mark "Compliant"; 2) if it does not meet the accessibility requirements, mark "Not compliant"; 3) and if the element is not present on the selected page, mark "Not applicable." For all cells marked "Not compliant," it is recommended to add a comment explaining the specific non-compliance, as this information will be required when

completing the accessibility statement form.

Comments:

During the accessibility assessment, overall partial compliance was identified. At the same time, potential improvements have been discovered. We are committed to working on enhancing accessibility. The process will also include a brand facelift, during which, together with design and user experience improvements, we will ensure compliance with accessibility requirements for the Elektrum Drive solution.
